## When birds of a feather once again flock together...

"The time to read and absorb so much incredible information from my reference library has generated a wealth of new material, ideas and inspiration, not just for my designs but my model building, piano, train sets and chateau restoration. I'm excited to see this unfold and share it with you in 2021."

## Lighting

When sourcing the perfect reading light proved difficult, Tim decided to design one. Collaborating with TM Lighting, the new ergonomic light features an integrated switch in the oval head and woven leather effect wrapped flexible wire.

## Into the Future....

More than just a dog treat. Bespoke dog beds, designed by Photis, made in Sycamore with panels of Ripple Sycamore laid in a herringbone pattern.

Not to mention a drawer for dog accessories and stolen shoes!
