Gather at the Gosling Games Table

“A games table is the perfect place to spend time with friends and family, the heartbeat of a gathering.”

Tim Gosling

Roulette, Blackjack, Scrabble, Chess, Bridge, Draughts & Backgammon.

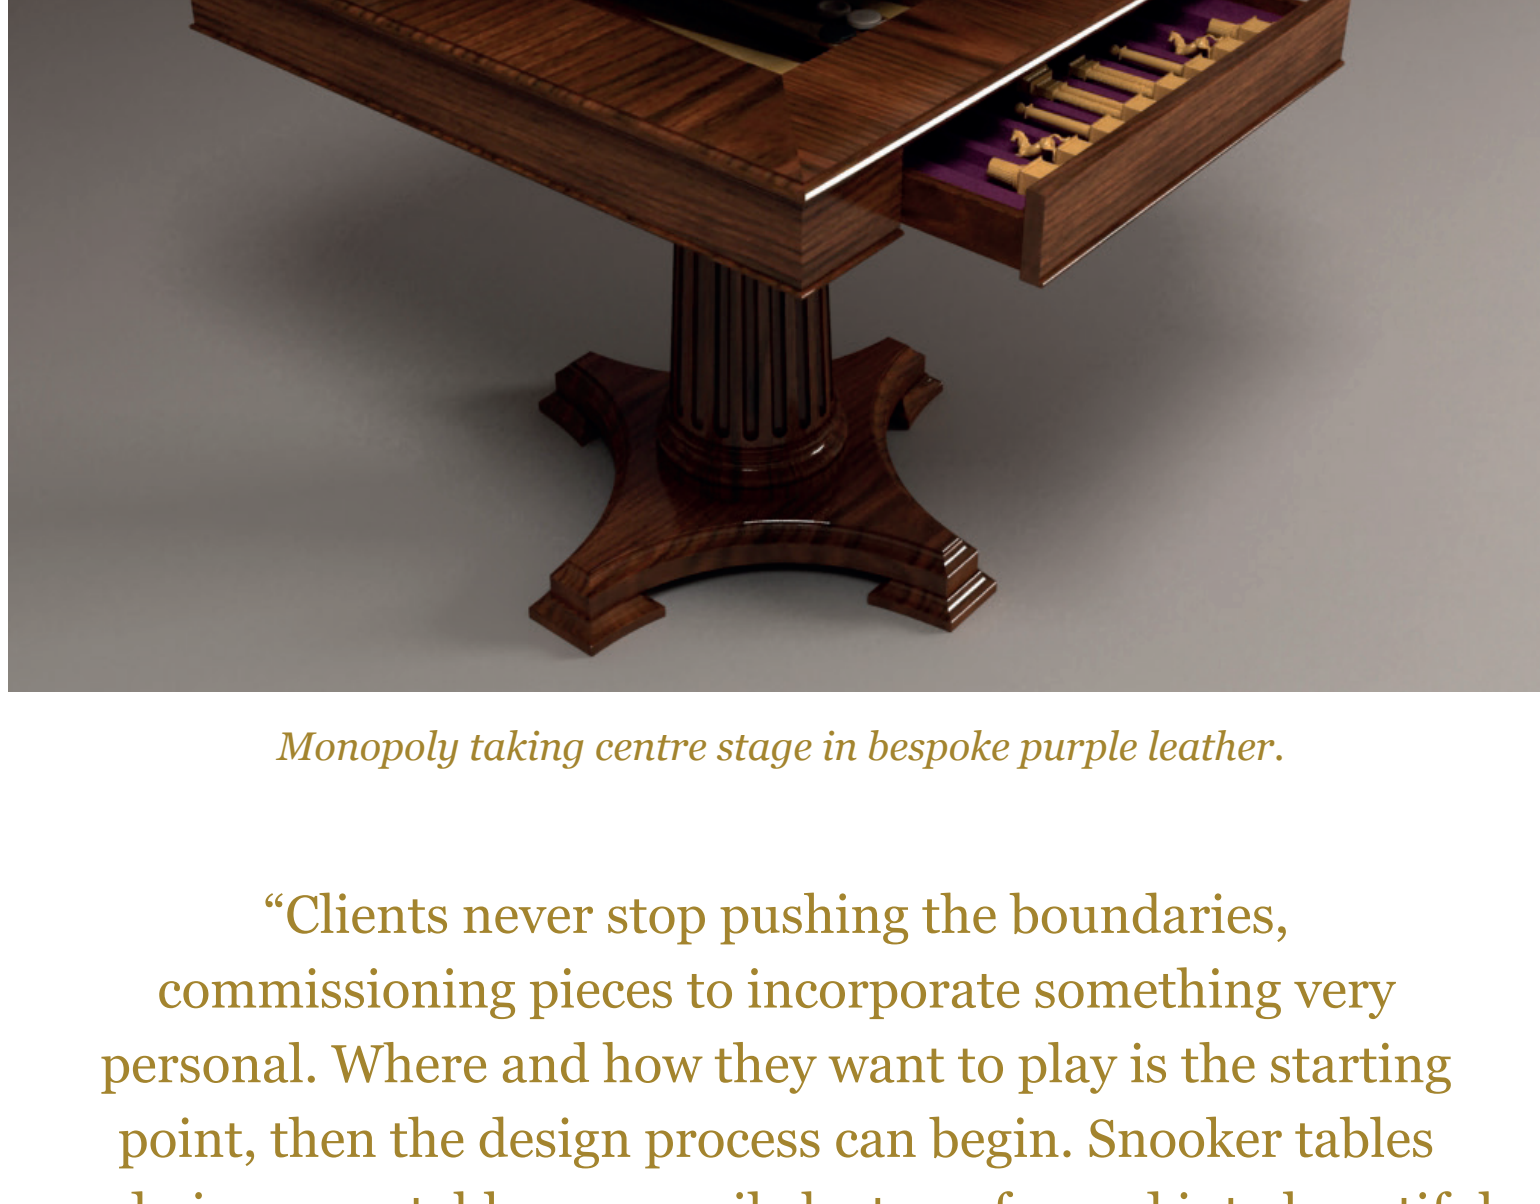

Over the last two years we have rediscovered our passion for traditional card and board games and parents are encouraging children to step away from gadgets.

Tim Gosling loves the process of designing a games table. Unlike other pieces of furniture, the function explicitly determines the design. Over the years Gosling has created hundreds of exquisite games tables, crafted in sycamore, beech, rosewood or contemporary Perspex. The material used depends on both the client's brief and the architecture of the room.

The wonderful thing about a games table is that it can 'stand out' in a room.

Monopoly taking centre stage in bespoke purple leather.

“Clients never stop pushing the boundaries, commissioning pieces to incorporate something very personal. Where and how they want to play is the starting point, then the design process can begin. Snooker tables and ping pong tables can easily be transformed into beautiful hall tables, the transformative power can be immense. Instead of huge expansive rooms with no main function the space becomes multifunctional for everyone to enjoy. Creating a games table with multiple interchangeable tops allows you to enjoy a variety of games whilst still having a beautiful table, a work of art.”

A quatrefoil column base in mahogany with five different wood inlays.

As with all of Gosling pieces, the games table process starts with an in-depth discussion to come up with the function, the space in which it will sit, the most loved games and how many people will play together.

All Gosling games tables are bespoke. Whether you enjoy an after-dinner game of backgammon, chess, draughts or a game of cards, a bespoke table will enhance the game into a truly magical experience. The intricate detailing, from how cards are stored in compendium boxes to how you roll the dice all come harmoniously together. Do you prefer the sound of the dice on wood or do you prefer it on soft leather? Backgammon stones can be created in leather or wood. So many choices!

Extra large table with inlaid roulette wheel and fold away croupier surface with a contemporary split base.

“The dice we use are handmade in America. The holes are drilled out on each face, which means the 6 face will be lighter than the 1 face, as it has more scooped out. These are microscopic changes in weight, but play a huge part. It is amazing how something as humble as dice can change the playing experience and elevate it to something even more sensational. Gosling dice are casino gambling approved, completely flat and each face the same weight.”
